Olive Landscapes turned our front garden from an ugly heap, infested with old bushes to a well sculptured mix of stone work, lawn and planting. Their quote also beat two other contractors.

Olive Landscapes has carried out two jobs for myself and my wife. The one constructing a stone wall approximately 12 metres in length, the other laying a paved area some 35 sq. metres in area.

In both cases the work was carried out without delay, with a minimum of inconvenience to us and to our entire satisfaction. The workmanship was to a high standard and we would have no hesitation in employing the company again for work of a similar nature.

We have found Olive Landscapes to be extremely efficient and conscientious in the work they have carried out on our garden.

From our first meeting with Rick we were greatly impressed by his ideas and vision for our outside space. He listened carefully to our ideas and offered suggestions of his own for creating a garden we are both delighted with. His approach was relaxed and informal, but at all times his conduct was utterly professional.

Rick provided us with a competitive quote and carried out the work within the time he had specified. He provided excellent communication at all times and was always willing to listen to, and incorporate, any new ideas we had.

Rick was readily willing to offer advice when asked, but carried out his work discreetly. He was thoroughly reliable and took great care to keep his work neat and tidy. He was always punctual and hard working, taking great care with his work and paying much attention to detail. His obvious skill and enthusiasm in his chosen area is what makes us confident we will contact him again in the future.

We would highly recommend Olive Landscapes.

OLIVE LANDSCAPES

Rick Wilson has undertaken two projects for the Historic Chapels Trust that have worked very well and I have no hesitation in recommending him for similar work. Rick has approached the jobs with a positive and helpful attitude and working with him was a simple and pleasant experience.
